# Shunondo Basu

## Taking a multi-disciplinary approach

Shunondo Basu, Rutgers class of 2014, graduated with majors in Meteorology and Economics, with a minor in Digital Communication, Information, & Media. He later went on to qualify as an Energy Risk Professional, joining the Global Association of Risk Professionals (GARP). He initially became interested in the energy markets after attending an AMS conference, becoming fascinated with how the prices of commodities can be affected by weather.

Shunondo currently works at BlackRock within the world of private equity, helping to allocate private capital towards investments in energy infrastructure. As part of his work, he examines how climate change poses risks to energy assets over longer time horizons.

*“At an American Meteorological Society conference, I became fascinated with the way weather and climate affect the prices of commodities such as natural gas.*

*Rutgers gave me the freedom to craft my undergraduate experience.”*
